

PRODUCT CATALOG · 2026

Products built & run by Tordnet

Original platforms, apps and games we design, ship and operate in-house -
used by people around the world every day.

One partner across every layer of **telecom**

1

Full-stack telecom

software, voice, and value-added services under one roof.

2

Global reach

products and platforms used by people around the world every day.

3

Production-grade

reliable, secure, and observable systems you can trust.

FLAGSHIP · CORE PLATFORM

Tornet SDP

SERVICE DELIVERY PLATFORM

The technical core behind every subscription service. The SDP connects directly into the operator's environment to configure services, pricing and subscription flows - enabling faster time-to-market across a growing portfolio. Paired with DCB, subscribers are identified automatically via Header Enrichment and billed in one tap to their mobile account, no credit card needed - a zero-friction path from service setup to subscriber billing.

One-tap billing

FOR OPERATORS

Telecom & Operator Services

● Credit Loan

Allows prepaid subscribers to borrow airtime or data when their balance runs low, automatically deducted on the next recharge. Keeps users connected and reduces churn at low-balance moments.

● RBT (Ring Back Tone)

Lets subscribers replace the standard ringing tone with personalized music or audio that callers hear. One of the highest-margin VAS products globally, with strong passive revenue.

● Smart SMS

Intelligent SMS services including automated responses, AI-powered customer interaction, and targeted bulk messaging with personalization. Delivers two-way communication without requiring internet or an app.

● OBD (Outbound Dialer)

An automated, high-volume outbound calling system for subscriber notifications, service reminders, surveys, promotional IVR campaigns, upsell offers and marketing — triggered by schedule or subscriber behavior to drive engagement.

● Wrong IVR

Intercepts calls made to invalid or unreachable numbers and redirects subscribers to an interactive voice menu — offering callback alerts, suggested contacts, or relevant service promotions. Turns dead-end calls into an engagement and monetization touchpoint for the operator.

● Wholesale International Voice Termination

High-quality global voice routing services with competitive rates and reliable call completion to destinations worldwide.

ENGAGEMENT CAMPAIGN

Mega Promotion

OPERATOR QUIZ & ENGAGEMENT VAS

Mega Promotion is a subscriber engagement campaign delivered via SMS or digital, challenging users with progressive quiz tiers to win prizes. Designed to drive re-engagement, reduce churn, and reward loyal subscribers. Fully managed by Tornet and operated through dedicated shortcodes.

Unified Communication

● Call Center Solution

A complete contact center platform with inbound and outbound calling, agent management, real-time monitoring, and reporting tools.

● Cloud PBX

A hosted business phone system that enables enterprise-grade telephony features without the need for on-premises equipment.

● IVR (Interactive Voice Response)

An automated call handling system that routes callers through customized voice menus to the appropriate department or service.

● SIP Trunking

Reliable voice connectivity that links your PBX to the public telephone network over IP, reducing costs and improving scalability.

Games & entertainment

Torliga FOOTBALL PREDICTIONS

An interactive, subscription-based football prediction game. Predict match results via web or app, play with friends, and climb the leaderboard - earning coins and points as you go.

[App Store](#)
[Google Play](#)

Torliga Champions CARD COLLECTION & IDLE

Build your club, collect national-team jerseys from all 48 nations of the road to 2026, and take your five-card squad into quick tactical matches. A companion game for the Torliga platform.

[App Store](#)
[Google Play](#)

Crickstar CRICKET PREDICTIONS

An interactive cricket platform that blends sports knowledge, competition and gifts. Predict matches, earn points, and rise up the leaderboard to win exciting prizes - all in one place.

[App Store](#)
[Google Play](#)

Trivoo QUIZ & TRIVIA

A quiz and trivia app that entertains while you compete. Play solo against bots or challenge friends across categories, answer fast for streak bonuses, and redeem points for boosters and real prizes.

[App Store](#)
[Google Play](#)

GoloCoin CRYPTO GAMING & REWARDS

A crypto-powered gaming and rewards platform where users earn GOLOs and Points through games, challenges, and engagement. The dual-currency economy lets players accumulate rewards across activities and redeem them for real prizes - from in-game boosters to physical items. Web-based, no app download required.

[golocoin.io](#)

Animal Match PRIZE GAME

A fun, fast matching game: three animals appear at the top, and you open windows on the board to find and match all three. Easy to play, exciting to win. Subscribe for daily tickets, win coins, and redeem rewards.

[animalmatch.co](#)

Giga DATA REWARDS TRIVIA VAS

A high-stakes trivia game where subscribers play to win real mobile data - up to 100 GB. Answer under a ticking countdown, use strategic power-ups, and get every answer right to claim the reward.

Gamefluence GAMING & REWARDS

A gaming platform where play pays off. Compete across games, complete challenges, and turn your gameplay into points and rewards — a community built around the games people love.

IN-HOUSE GAME STUDIO

Istikan Studio

Games built end to end — design, art, code, launch.

Istikan Studio is the game development department of Tornet. We are a small, talented team of developers, artists and designers who take original titles from first concept to store launch, and keep them running afterwards. We build for iOS, Android, Steam and the web.
